

## simply: inspiring.

Generous and with a clear sense of aesthetic, the vigilius opens its arms and invites you to retreat into simplicity. Here we gladly attribute worth to the little things in life and quickly you will feel the pleasant "blank sheet of paper" feeling that brings renewal and readiness for something new, for adventure in the mind and a spirit full of curiosity. In the sense of this openness, vigilius understands itself as both being a place of mediation – for Art and Culture, for creativity and continuing education on a personal level – as well as being an ambassador of enjoyments!

## Wild Herb Days

This year as well, the vigilius mountain resort will also get involved in the delicious culinary Wild Herb Days that will take place in Lana and the surrounding area ([www.wildkraeuter.bz.it](http://www.wildkraeuter.bz.it)). When the spring spreads over the land, a true treasure chest of delicacies opens itself that thrives right in the middle of the unspoiled nature on the car-free St. Vigilio and the nearby vicinity. During walks outdoors and in the immediate area there are a manifold of aromatic herbs and blossoms to discover that, freshly picked, refine our meals from antipasto to desserts.

## 16<sup>th</sup> Vernatsch Cup

The culinary South Tyrolean summer finds a more than fitting partner in the native wine variety Vernatsch.
