Teambuilding

simply: belonging together. A mountain island, far away from all daily routines, inspiring interactions, renews perspective and invites people to come closer together: by moving in nature, through team activities, by rediscovering oneself anew.

Our personal trainer Barbara will be happy to assist you with the following activities.

Fitness-Outdoor-Training

At vigilius mountain resort, the fitness room is outdoors in the fresh air. The tended woods and meadows on the car-free Vigiljoch hosts a purely natural Fitness Obstacle Course at 1500-1800 m above sea level: lifting tree trunks together, training on stones and thick branches – and then relaxing and recuperating in the mountain spa.

Archery

With centered strength. The art of archery demands a balance of fullest concentration, technical skill and strength. The bright woods on the Vigiljoch offers an ideal place to become more familiar with this ancient hunting form and – with a little practice – to challenge one another in team competitions.

Lana-Vigiljoch Power Walking

The landscape is as decorated with vineyards, farmhouses, fruit orchards and woods as the tour from Lana up the Vigiljoch is both challenging and demanding. Step by step the team works its way up 1170 vertical meters over 3.5 hours to a goal where the breathtaking view of the distant Dolomites offers a sovereign reward to the whole group.

Barefoot Hiking

To consciously feel the ground under one's feet opens up a new "forgotten" dimension, awakens childhood memories and inspires the senses. The hike leads over the Vigiljoch Path of Belief and provides breaks for foot gymnastics and breathing exercises.

Paragliding

Muster up one's courage: a short run, then take off and be amazed. The Vigiljoch is one of the most attractive flying destinations for paragliders – soaring above enchantingly diverse, natural landscapes, with distant views of the Dolomites and the delicious taste of freedom. The accompanied tandem flight naturally offers every security precaution.

Boccia

Well hidden in the larch woods below the piazza terrace, a small path leads to our own Boccia court. Marksmanship and luck decide this pleasurable game that is nearly as old as humankind itself. It is all about rolling larger balls as close as possible to other smaller balls pre-positioned on a bed of sand.

Cooking Course

Delicious insight into the art of magically preparing thrilling dishes from the treasures of the region. Our kitchen chef Matteo Contiero invites groups of up to 12 people to his stove and demonstrates how he highlights the unique qualities of ingredients through their presentation to achieve a plate of harmony. The course is crowned with the enjoyment of the prepared dishes in the Restaurant 1500.
